The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain, and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 53·63 inches, the average due for the same period being 46·70 inches.

There were twelve calm hours during the month. The resultant corresponding to the above numbers is represented by a N. by E. wind, blowing with a uniform daily velocity of 111 miles.

The stormy weather which prevailed at the end of October continued till the 4th of November. At this time a complete change set in. The low pressure area in the south-west of the Bay first of all extended in a north-easterly direction and then concentrated off the Arakan coast. At the same time pressure became highest in the Deccan, rain ceased over the south of the Presidency and fine weather with warm days and cool nights set in. These conditions continued almost without interruption till the end of the month, and minimum temperatures at Madras were on the average 3° to 4° below normal. On the 29th some rain fell on the Madras coast under somewhat unusual conditions. It was probably occasioned by steeper gradients and stronger winds than usual and possibly a small residual depression off the coast. The total rainfall for the month was slightly below the average. Thunderstorms occurred on two days, distant thunderstorms on one day, and distant lightning was recorded on one other day.

16. The society has been keeping in its own possession portions of the Reserve and Common Good Funds making book adjustments of interest thereon. This has been causing some confusion. On this account I was not able to make any definite proposals as regards the distribution of the net profits and their distribution from the commencement according to the society's accounts.

From the above it would appear that the total amount of Reserve fund including the amount to be carried to the head from the profits of the year under report is Rs. 4,373-14-4, that of the common good fund is Rs. 3,655-12-4, and that of undisposed of bonus and dividend is Rs. 2,659-0-4. Out of the first two amounts Rs. 1,728-13-2 and Rs. 1,325-6-10 respectively have been invested in the Post office under these heads and the society still holds Rs. 2,647-2-2 and Rs. 2,363-5-3 of these funds respectively or Rs. 5,010-7-5 together, which together with the amount of undisposed of bonus and dividend Rs. 2,659-0-4 makes a total of Rs. 7,669-8-0, the amount of profits available for distribution on 30th June 1908. This amount according to the audited figures is only Rs. 7,896-9-1 being less than the society's amount by Rs. 2-14-11. The society may now be requested to separate the remaining amounts due respectively to these funds from its general accounts and invest them separately maintaining two distinct accounts, viz., a reserve fund account and a common good fund account. The society may also be requested to close the bonus and dividend accounts annually maintaining a separate account for any undisposed of amounts. I would suggest that the society may with advantage close its accounts once a year instead of twice a year as at present. This procedure will save a lot of trouble to the society itself and would secure uniformity between the society's report and the Government audit review.

17. Notwithstanding the instructions issued on the subject, the society has failed to maintain the stock register fully. The wastage, etc., could not therefore be thoroughly checked. The other accounts are well and correctly maintained. Considering the very large volume of transactions in the distributive branch of the society, it is very creditable to the management and the establishment, especially the Manager Subrahmania Aiyar, that the work has been done so well and the accounts maintained so accurately.

18. The Board of Directors met 36 times in the year under report and 2 meetings of the general body of members were held during that period. All the above meetings were successfully held.

K. VIJAYARAGHAVACHARI,
Special Deputy Collector.

AUDIT ORDER

The Special Deputy Collector's audit report is adopted.

2. With a heavy establishment it is a matter for regret that the stock register is not properly maintained. The only end of a co-operative society is not to earn profits but to co-operatively cater for some common purpose. Business habits should be cultivated; and it requires but little effort if the services of some members could be secured to check transactions.

3. The society is requested to submit a full report as how it means to invest its reserve and common good funds.

4. The society should extend its operations to other parts of Madras, and at the same time but on a workable constitution by splitting the society in sections. I shall be glad to advise the Board of Directors on details.

5. The society has done extremely well, but there is yet room for considerable improvement. But with the excellent co-operative material available the Registrar trusts the society will progress more and more if only earnest efforts are made.

Office of Registrar of Co-operative Credit Societies,
Madras, 5th December 1908.
